Weatherization & Appliance Management Programs	Must meet income guidelines. See attached income guidelines.	The Weatherization Assistance Program enables low-income families to permanently reduce their homes more energy efficient. The AMP program is one in which the auditor goes into the home of a client and, by use of a computer program, examines the usage electricity in the home and where it is being wasted or over used. AMP replaces light bulbs with energy efficient bulbs, and meters the client's refrigerator to determine it's efficiency. If the refrigerator is not efficient, it is replaced with an Energy Star refrigerator. This is in keeping with a government effort to reduce electric usage to conserve our country's waning resources.	Open	467-9610 x 137 or 143
